

SUPERFORGIATA

High-Performance Wheel for Super Cars

FOR IMMEDIATE RELEASE – OZ Racing presents SUPERFOGIATA, the top-of-the-range OZ wheel with iconic appeal for fans of racing style and true performance in the I-TECH collection.

The ultimate expression of wheel design and technology, SUPERFORGIATA gains further exclusivity to complement the most sophisticated automobiles. A masterpiece achieved from an exclusive milling process which reduces the weight of each spokes, making this lightweight product (approx.7Kg for front wheels and approx. 9.5Kg for rear wheels).

Once again, OZ goes right to the heart of what sports enthusiasts want -- technical performance, features and aesthetic appeal – bringing to the table experience gained by OZ TECH LAB technicians in racing, alongside attention to detail and fine finishing touches, together with the anodized OZ racing effect rim and the engraved logo, give the car an even more I-TECH look.

To satisfy the most demanding driver, the SUPERFOGIATA is available in CENTRAL LOCK and 5 Holes versions, in both 19” and 20” diameters for super cars like: Audi RS4, RS6, R8; BMW M5, M6; Ferrari 430 Scuderia, 458 Italia; McLaren MP4, Gallardo; Nissan GT-R; Porsche 911 Turbo, GT2, GT3, GT3 RS and the 991.

Like all wheels made by OZ. SUPERFORGIATA is TÜV certified.
